

This is estimated by calculating how much time I could leave for work, despite studying at university as well, plus other thing such as holidays & vacation days.

\$18,000

\$7,400 N A double residence at the University of Waterloo costs around this much per year. It also covers internet, utilities, maintenance, residence-specific amenities, access to fitness and music rooms, and other perks.

Need

\$395 Want

\$950 N

I determined this by looking online for computers (laptops specifically) that aren't brand new, but still up-to-date, support the programs I would need to use in university, and perfectly usable. I found a good one for 950 dollars.

\$200 [red]

There will most likely also be other fees throughout the year. Things such as going to a cafe/restaurant, issues with [red]
